Workshop-04 Android Development - CIC

Poor app performance can ruin the user experience and destroy your app's reputation. If it ever responds slowly, shows choppy animations, freezes, crashes, or consumes a lot of power, your users will notice. To avoid these performance problems, use the Android Profiler to measure your app's memory, CPU, and network usage.

Documentation | Android Developers

Welcome to the Android developer guides. The documents listed in the left navigation teach you how to build Android apps using APIs in the Android framework and other libraries. If you're brand new to Android and want to jump into code, start with the Build Your First App tutorial. And check out these other resources to learn Android development:
