A goal is an idea of the future or desired result that a person or a group of people envisions, plans and commits to achieve. People endeavor to reach goals within a finite time by setting deadlines.. A goal is roughly similar to a purpose or aim, the anticipated result which guides reaction, or an end, which is an object, either a physical object or an abstract object, that has intrinsic value

SMART is a mnemonic/acronym, giving criteria to guide in the setting of objectives, for example in project management, employee-performance management and personal development. The letters S and M generally mean specific and measurable. Possibly the most common version has the remaining letters referring to achievable, relevant and time-bound. However, the term’s inventor had a slightly different ...
