The history of numerical control (NC) began when the automation of machine tools first incorporated concepts of abstractly programmable logic, and it continues today with the ongoing evolution of computer numerical control (CNC) technology.. The first NC machines were built in the 1940s and 1950s, based on existing tools that were modified with motors that moved the controls to follow points ...

History of numerical control - Wikipedia

I was prepared for all sorts of issues, but it was the most painless thing I've done in CNC. I had been using an old Windows XP-based, Pentium 4 computer to run my CNC tools with Mach3 since 2007, but the computer started having issues and working unreliably.
