Google's next big thing will likely come from one of its new priority areas, like cloud, transportation, and healthcare. Each has a massive, global addressable market and plays well to Google's strength in AI.

Google Strategy Teardown: Google Is Turning Itself Into An
Google Cloud Platform, offered by Google, is a suite of cloud computing services that runs on the same infrastructure that Google uses internally for its end-user products, such as Google Search and YouTube. Alongside a set of management tools, it provides a series of modular cloud services including computing, data storage, data analytics and machine learning.
