The heat death of the universe is a plausible ultimate fate of the universe in which the universe has evolved to a state of no thermodynamic free energy and therefore can no longer sustain processes that increase entropy. Heat death does not imply any particular absolute temperature; it only requires that temperature differences or other processes may no longer be exploited to perform work.

1) Cigarettes Cigarettes are bad for you, like really bad, like proven to cause cancer and a multitude of other illnesses bad. Despite what you tell yourself, and unlike other substances such as cannabis, there are actually no real benefits to smoking cigarettes, especially when it comes to the money in your pocket. There are however hundreds of reasons to quit.
