0Design Guide Goal Presenting and assisting in the selection of MV equipment in conformity with standards. Providing design rules used to calculate the dimensions or ratings of an MV switchboard. How? By proposing simple and clear calculation outlines to guide the designer step by step. By showing actual calculation examples.

The advantages of this technique are: A very compact vacuum interrupter Low energy dissipation of the arc in the vacuum interrupters Evolis is in conformity with the highest electrical endurance class (IEC 60056: class E2). High mechanical endurance The magnetic field is generated by a patented outside coil which surrounds the contact area.
