The African-American Civil Rights Movement was a group of social movements in the United States. Their goal was to gain equal rights for African-American people. The word "African-American" was not used at the time, so the movement was usually called The Civil Rights Movement. This article talks about the part of the movement that lasted from about 1954 to 1968.

Regulatory T lymphocytes are essential to maintain homeostasis of the immune system, limiting the magnitude of effector responses and allowing the establishment of immunological tolerance. Two main types of regulatory T cells have been identified—natural and induced (or adaptive)—and both play significant roles in tuning down effector immune responses.
