The same goes for the rate at which children learn language. Some will produce their first word at the age of ten months or even earlier, and some will not do so until eighteen months or later. 4. Mistakes are good
Children make many mistakes when they learn language. What parent

How children learn language – what every parent should know

#1 Introduction – How people learn p. 4
God was an example of an innate idea. He recognized that the body could be appreciated and studied as a zoological machine, while the mind was separate and free from the body. He was one of the first to define precisely the ability of the environment and the mind to influence and initiate behavior.

#1 Introduction – How people learn
