Design-build (or design/build, and abbreviated D-B or D/B accordingly) is a project delivery system used in the construction industry. It is a method to deliver a project in which the design and construction services are contracted by a single entity known as the design-builder or design-build contractor. It can be subdivided into architect-led design-build (ALDB, sometimes known as ...

I have been using the Poppler library for some time, over a series of various projects. It's an open source set of libraries and command line tools, very useful for dealing with PDF files. Poppler is targeted primarily for the Linux environment, but the developers have included Windows support as well in the source code.
