Digging is the process of using some implement such as claws, hands, or tools, to remove material from a solid surface, usually soil or sand on the surface of the Earth. Digging is actually the combination of two processes, the first being the breaking or cutting of the surface, and the second being the removal and relocation of the material found there.

The objective of Dig Dug is to eliminate underground-dwelling monsters, either by inflating them with an air pump until they explode, or by dropping rocks on them. There are two kinds of enemies in the game: "Pookas" (a race of cute round red monsters, said to be modeled after tomatoes, that wear yellow goggles) and "Fygars" (a race of green dragons that can breathe fire when their wings flash).

I have found a fix to this annoying problem. And it must have something to do with Adobe Reader 9 not having enough time to load the PDF. In Adobe Reader 9: Click 'Edit', 'Preferences...', 'Internet' (In the sidebar), Uncheck 'Allow fast web view'. I think this is much better than completely preventing it from displaying in the web browser.
