Setting boundaries is an important part of establishing one's identity, as well as being crucial for one's mental health and well-being. There are different types of boundaries, from physical boundaries to emotional boundaries, and there are also different levels of boundaries, from loose to rigid, with healthy boundaries falling somewhere in between.

A grow light or plant light is an artificial light source, generally an electric light, designed to stimulate plant growth by emitting a light appropriate for photosynthesis. Grow lights are used in applications where there is either no naturally occurring light, or where supplemental light is required. For example, in the winter months when the available hours of daylight may be insufficient ...

The "Healthy Homes" model promoted by the National Center for Healthy Housing (NCHH) is a concept that promotes safe, decent, and sanitary housing as a means for preventing disease and injury.

### **Healthy Homes Program - [sonomacounty.ca.gov](http://sonomacounty.ca.gov)**

There are a number of lines of defence against pests (that, those animals that cause damage to the plants we grow) and diseases in the orchard, principal among these being the practice of good husbandry, creating

healthy soil and ensuring high standards of garden hygiene. But no matter how diverse and healthy the garden eco-system may be, there will always be a degree of disease and pest presence.
