English [] Etymology []. A nautical expression indicating a water depth of 6 fathoms (36 feet, 10.97 metres) as measured by a sounding line; "deep six" acquired its idiomatic definition because something thrown overboard at or greater than this depth would be difficult, if not impossible, to recover. Marks on a sounding line were traditionally placed at 2, 3, 5, 7, 10, 13, 15, 17, and 20 fathoms.
