of The Encyclopedia of World Religions is to help you find this kind of information. We need always to recognize that religion can be looked at in two ways, from outside and inside. The "outside" point of view means identifying some basic facts—for example, the history, teachings, practices, and organization of a religion,

To the Irish Celts, the craft of poetry was a form of magic, related to incantation and enchantment. Especially powerful was the satire, a stinging verbal rebuke so strong and effective that it could change the physical

world. A satire could raise boils on the skin of a stingy king or twist the arm of a thief.

The file is one of the oldest tools known to man. Its development probably came about when prehistoric man wanted a better cutting edge on his crude stone axe. The first file was probably a rough stone used with an abrasive effect to make the edge of an axe much thinner and sharper after long and hard labor.
