168 During the 1960s and 1970s, the law was not the only domain that questioned the legal institution of paternity or used the family to rethink social norms. The idea that a critique of the nuclear heterosexual family would lead to a more forceful social critique was certainly not specific to France.

Learning the intricate pattern of kinship is part of every Aboriginal child's education. Many of these forms of behaviour are considered necessary to show politeness and respect to certain relatives. Kinship is thus brought with it a set of obligations that one had to perform when relating to others. These obligations form a part of Aboriginal Law.

Kinship is at the heart of Indigenous society. A person's position in the kinship system establishes their relationship to others and to the universe, prescribing their responsibilities towards other people, the land and natural resources. Traditional kinship structures remain important in many Indigenous communities today.
